COMMERCIAL
INDUSTRIAL SUPPLY

TANKS & ACCESSORIES

- **SERVICE** *You depend on*
- **EXPERTISE** *You trust*
- **AVAILABILITY** *You need*

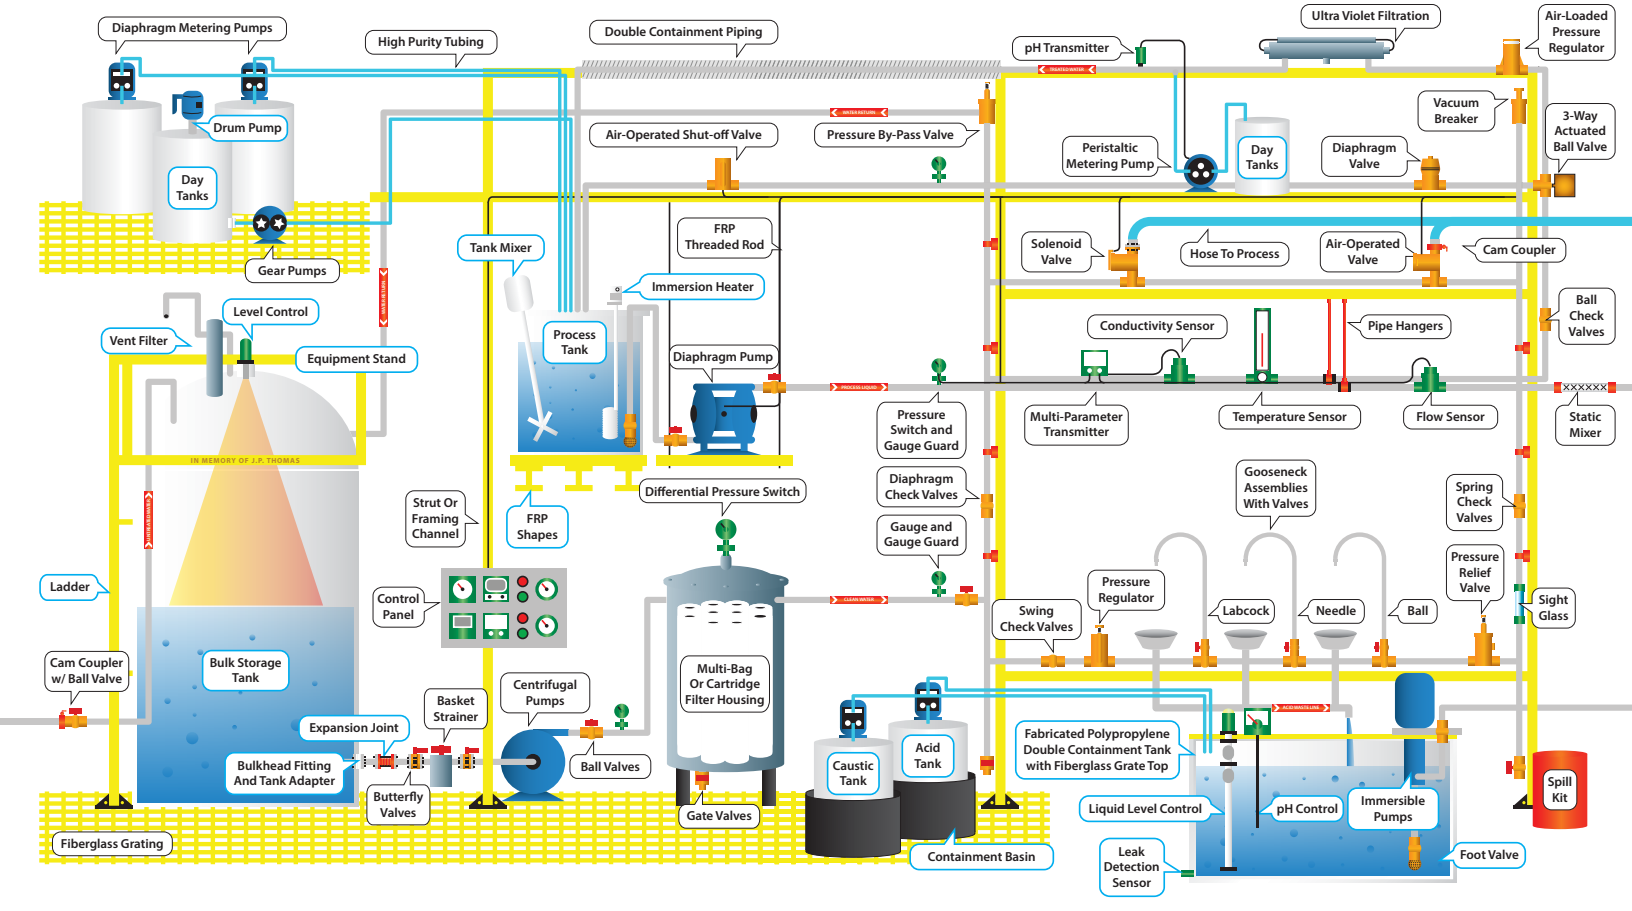

APPLICATIONS

- Water & Wastewater
- Aquatic Life Support
- Bio-Pharm & Life Science
- Microelectronics
- Chemical & Industrial
- Petrochemical
- Pools & Commercial Water
- Food & Beverage
- Breweries & Distilleries
- Metal Finishing

Commercial Industrial Supply supplies tanks for many industries including water treatment, chemical manufacturing, power generation, municipal waste treatment, and general industrial manufacturing. CIS has provided tanks to handle hundreds of chemicals including Sodium Hypochlorite, Sulfuric Acid, Sodi-um Hydroxide, Hydrochloric Acid, Potassium Hydroxide and many others. Harrington provides tanks that are constructed to the latest industrial standards including ASTM, API, UL, NSF, ASME, and AWWA. Single and double wall construction, heating and cooling jackets. CIS also provides mixers, platforms, ladders and a full range of accessory items.

Providing Industry Leading Tanks & Containment Systems

AQUATIC LIFE SUPPORT

The Aquatic animal community is focused on the health and well-being of animals and also water quality. Which is why CIS offers only the highest quality and most reliable products that are put into service in a life support system.

LIFE SCIENCE

Life science applications demand durability, reliability, regulatory compliance, traceability from raw materials and design flexibility. CIS provides product solutions for these very demanding applications.

BIO-PHARM

In Pharmaceutical and Biotechnology industries, sterility and high purity are mandatory. CIS offers the highest quality products in order to meet these high standards and specifications.

METAL FINISHING

CIS provides corrosion resistant piping systems, valves, actuators, and many other components ideally suited for use in many metal finishing applications.

CHEMICAL

Chemical processing applications vary greatly, however one constant is the need for corrosion resistant products. CIS offers the industry longer lasting, light-weight and corrosion resistant products to these applications.

PETROCHEMICAL

There are several chemical applications used throughout a plant. For example, Sodium Hypochlorite is used to control microbial growth and Sulfuric Acid is used to adjust pH. These chemical applications are perfect for CIS's line of products.

POOLS

CIS is dedicated to providing quality products and equipment for safe water treat-ment. Various recreation facilities, resorts and water parks rely on Harrington's products and services in order to maintain water quality.

PULP & PAPER

Corrosive environments like pulp and paper processing demand a durable, corrosion resistant solution. CIS delivers FRP and thermoplastic products that wont rust, rot, warp or corrode.

FOOD & BEVERAGE PROCESSING

CIS specializes in providing FDA and USDA-approved, easy-to-sanitize, corrosion resistant products and materials for the food and beverage processing industries.

MICROELECTRONICS

Microelectronics manufacturing requires the cleanest water possible and handles some of the most corrosive chemicals. CIS understands your process needs and provides the most diverse product solutions for these unique fuild & gas handling applications.

INDUSTRIAL FLUID HANDLING

Regardless of your processing application, CIS will keep your operations running smoothly, thanks to our extensive corrosion resistant piping system product offering.

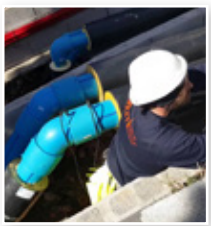

WATER/WASTE WATER

Producing safe drinking water and treating waste water requires various chemicals that require the appropriate corrosion resistant products to handle these harsh applications. CIS has the products required to keep these plants in safe operation.

COMMERCIAL WATER

CIS provides piping systems and components for many commercial water applications including; schools, hotels, apart-ments, health care facilities, manufacturers and other higher volume water users needing high quality water.

BREWERIES & DISTILLERIES

CIS offers a variety of solutions for the brewery, winery, and distillery markets. Weather you're a microbrew, vineyard or a large scale distillery, CIS is your source for piping, filtration, bulk storage and all your other piping system needs.

CARBON STEEL TANKS

- Flat, Sloped, Dished, or Cone Bottoms
- Shop Built and Field Erected
- Vertical and Horizontal Configurations
- Single and Double Wall
- API, ASME, UL, and AWWA Standards
- Heating/Heat Transfer Systems
- Shop Applied Insulation
- Ladders, Platforms, Mixer Supports
- Unlimited capacities, configurations, and dimensions

STAINLESS STEEL TANKS

- Flat, Sloped, Dished, or Cone Bottoms
- Shop Built and Field Erected
- Vertical and Horizontal Configurations
- Single and Double Wall
- API, ASME, UL, and FDA Standards
- Heating/Heat Transfer Surfaces
- Shop Applied Insulation
- Industrial and Sanitary Finishes and Fittings
- Reactors and Pressure Vessels
- Mixers, including scrape surface agitators

FIBERGLASS TANKS

- Flat, Sloped, Dish, or Cone Bottom Configurations
- Vertical/Horizontal/Custom Fabricated
- Single and Double Wall
- All resins/corrosion barriers
- Ladders, Heat Systems, Insulation, Mixer Supports, Top Handrails and More
- Shop built to 50K+ Gallons
- Field Erected to 200K+ Gallons

POLYETHYLENE TANKS

- Flat or Cone Bottom
- Vertical/Horizontal/Custom Fabricated
- Single and Double Wall
- Linear & Cross Linked Resins
- Ladders, Heat Systems, Insulation, Fill Pipes and More
- Capacities 20 to 16500 Gallons

CONTAINMENT TANKS

- Double Wall Tanks (ASTM D1998) & (NSF/ANSI 61)
- Used Oil Collection Tanks
- MCU™ Multiple Chemical Unit Tanks
- Containment Tanks & Basins
- Spill Containment Pallets and Pump Enclosures
- Chemical Feed Stations
- Chemical Injection Tank Systems
- HDPE, XLPE, PP, PVDF & FRP Materials available

ACCESSORIES

- Vent Assemblies
- OSHA-Approved Ladders
- Seismic Restraints
- Leak Detection Systems
- Bolted and Threaded Manways
- Bolted and Sealed Lid Assemblies
- Quick Disconnect Couplings
- Bulkhead Fittings
- Sparging Eductors
- Tank & Drum Mixers
- Immersion Heaters
- Temperature Controls
- Transition Fittings
- Tank Stands
- Sight Gauges
- Steel Dolly's with Casters

FIELD ERECTED TANKS - BOLTED & WELDED

CARBON STEEL

- Any Diameter; Any Height
- Coated or Bare
- Glass-Fused to Steel
- Embedded Ring in Concrete
- Cone, Sloped or Flat Bottom
- Open Top or Cone Top

STAINLESS STEEL

- Any Diameter; Any Height
- T-304 or T-316
- Embedded Ring in Concrete
- Cone, Sloped or Flat Bottom
- Open Top or Cone Top

FIBERGLASS

- 16', 20', 25', 30' diameter
- Flat Bottom; Sloped Bottom
- Open Top; Domed Top
- Oblated Rings for shell sections (Efficient shipping costs)
- Prolated once on job-site
