PUMPS

- **SERVICE** *You depend on*
- **EXPERTISE** *You trust*
- **AVAILABILITY** *You need*

EXPERIENCE THE CIS DIFFERENCE

Commercial Industrial Supply offers a broad line of quality pumps in a variety of different pump types to handle the toughest of pump applications. All the components for complete systems are available to meet the diverse specifications of the metal plating & finishing, semiconductor, water, wastewater, biotechnology and pharmaceutical industries. Our Pump Specialists are ready to assist you with your mission-critical projects, including: municipal, industrial, chemical, agricultural, and custom markets. To speak with one of our technically trained sales professionals, please contact us anytime at 1-866-777-8001 or find us online at commercial-industrial-supply.com.

Centrifugal Pumps

CIS has a full line of centrifugal pumps in a very wide range of materials of construction and sealing technologies to cover transfer and recirculation applications with almost any chemical or liquid.

CIS has you covered with:

- *Vertical & Horizontal*
- *Mounted on a Base*
- *Close Coupled*
- *Plastic Mag Drive & Lined Steel Mag Drive*
- *Stainless Steel & Cast Iron*
- *Self-Priming*

Heavy Duty ANSI Centrifugal Pumps

CIS has a complete offering of ANSI centrifugal pumps covering your heavy industrial pumping requirements. Our line of pumps cover a large range of flow conditions with maximum flow rates to 7000 gpm, maximum pressures to 900 ft, and maximum temperatures to 500 Deg. F. We also have one of the largest variety of materials of construction to offer the best long term fit for your application. From close coupled to base mounted packages, we have you covered.

Materials of Construction:

- *Durable, corrosion resistant Tefzel® lined ductile iron*
- *316 Stainless Steel*
- *Ductile Iron*
- *CD4MCuN*
- *Alloy 20*

Pump Types:

- *Mechanical Seal*
- *Self-Priming*
- *Mag Drive*

Metering Pumps

Our broad metering pump line covers chemical and liquid injection into the industrial, municipal, and commercial markets. From popular applications such as waste & water treatment, swimming pool, chemical blending, and food & beverage we have one of the most comprehensive line of metering pumps to help with your application. From injection quills to injection skids, we can also offer complete metering pump packages.

Pump Types:

- *Hydraulically Driven*
- *Mechanical*
- *Diaphragm*
- *Peristaltic*
- *Solenoid*

Diaphragm Pumps

Our diaphragm pumps come in a size range from ¼" to 3" and handle flow ranges up to 300GPM and pressures up to 120 PSI. We are also able to provide diaphragm pumps driven by air, electricity, or hydraulically. Applications from the extremely corrosive to abrasive are handled easily with a large array of internal materials of construction. CIS also has you covered with a full line of accessories including air filter/ regulators, surge suppressors, air solenoid valves, drum kits, and batch controllers.

Ask us about the new Graco QUANTM® Electric Diaphragm pump and how this efficient pump can start saving you money today. QUANTM® features a revolutionary electric motor design that helps to reduce operational costs and keep production lines running. Contact us anytime at 1-866-777-8001 or find us online at commercial-industrial-supply.com.

Electric & Piston Drum Pumps

Safe and reliable transfer of liquids from drums and totes is a major concern at every facility. Let CIS help you choose the right drum pump for your application tailored around your specific application needs.

Motors:

- *Electric*
- *Explosion Proof*
- *Battery Operated*
- *Air Driven*
- *Manual pumps also available*

Materials of Construction:

- *Internals: Pure PVDF, Alloy 625, PTFE*
- *Polypropylene*
- *PVDF*
- *CPVC*
- *316 Stainless*

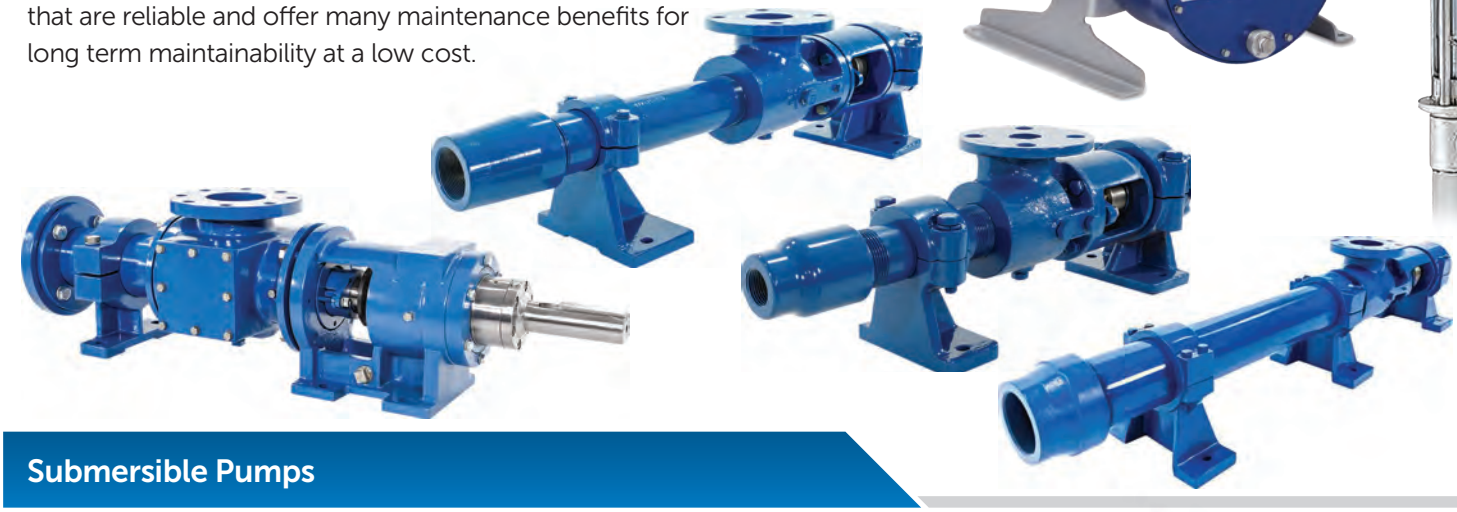

Additional Info:

- *Mechanically Sealed and Sealless*
- *Thin and Viscous liquids*
- *FDA, ATEX Compliant*

Positive Displacement Pumps

Our line of specialty Positive Displacement pumps for viscous liquids or liquids with suspended solids can help transfer the hard to move liquids. We offer Hose Pumps, Progressive Cavity, Lobe, Gear, and Piston pumps that are reliable and offer many maintenance benefits for long term maintainability at a low cost.

Submersible Pumps

CIS has a comprehensive line of submersible pumps in corrosion resistant plastic, 316 & 304 Stainless Steel, and ductile iron for applications that include chemical sump, Deionized water, Effluent, Grinder, and wastewater with solids applications.

Call us at 1-866-777-8001 so we can help with your next application or email us at info@emailcis.com

Pressure Boosting Pumps & Systems

CIS covers pressure boosting applications from small well application to large commercial, industrial, and municipal applications. From a single pump to replace on your reverse osmosis system to a complete multi-pump package complete with control panel and vfd's we have your application covered.

Pressure Boosting Applications:

- *General purpose pumping*
- *Lawn and crop irrigation*
- *Rain harvesting system*
- *Pressure Washing*
- *Water circulation*
- *Filtration*

Vertical Centrifugal Pumps / Filter Combinations

We offer many brands to assist with a replacement or an upgrade to your existing pumps on plating and surface finishing tanks. Call us today for just a replacement pump or assistance with designing a new system or pump & filtration package.

Materials of Construction:

- *CPVC*
- *PVDF*
- *PVC*
- *PP*

Accessories

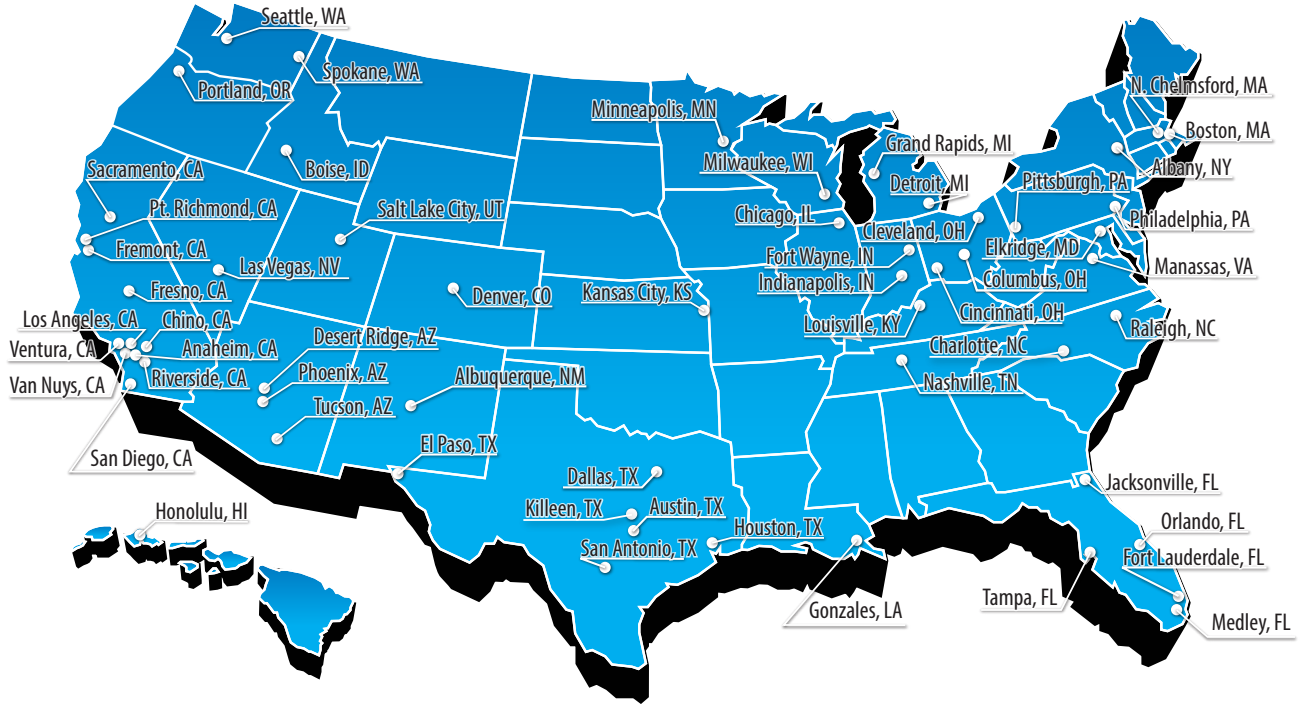

We offer a line of pump accessories that help keep your pump running longer, and your application running more efficiently and safely: *Variable Frequency Drives, Strainers, Run Dry Protection, Air Filter/Regulators, Motors, Pulsation Dampeners, Repair kits, Pump Boxes, and Controls*

APPLICATIONS

- Water & Wastewater
- Aquatic Life Support
- Bio-Pharm & Life Science
- Microelectronics
- Chemical & Industrial
- Petrochemical
- Pools & Commercial Water
- Food & Beverage
- Breweries & Distilleries
- Metal Finishing

Proudly offering these and many other top quality brands
